

MagellanPlus workshop series

Writing drilling proposals

Lunch & Learn for scientists

12 Dec 2019

12.30 - 13.30

Bring your lunch and learn
about the **MG+** workshop series

Thursday
IODP booth
1222-1224

Speaker: **Prof. Dr. Lucas Lourens**

Stratigrapher and paleontologist

MG+ supports ECORD scientists in developing new and innovative scientific (marine -continental) drilling proposals that follow the IODP and/or ICDP Science Plan themes. It funds on average four workshops per year and provides a limited amount of travel grants for international IODP and ICDP workshops held in other countries. **By Q&A you can learn how to participate in the program and which guidelines you have to follow.**

Space is limited - first come, first seated!
