

Friday, June 18th 11:00 - 12:00 am CET

Scientific Drilling: a long-lasting opportunity for cutting-edge research in Earth and Ocean Sciences

Elisabetta Erba - Department of Earth Sciences "Ardito Desio", University of Milan "La Statale"

Angelo Camerlenghi - National Institute of Oceanography and Applied Geophysics, Trieste

Introductory presentation by Isabella Raffi (Univ. "G. d'Annunzio" Chieti - Pescara)

Elisabetta Erba is a Professor in Paleontology and Paleoecology at the Department of Earth Sciences, Univ. of Milano. She is a specialist of: Mesozoic calcareous nannofossils used for biostratigraphy and paleoceanography. She has been involved in the Ocean Drilling program since the early stages of her career, as ESSAC Science Coordinator, shipboard paleontologist on ODP Legs 129 and 144, members of IODP panels, and co-proponent in drilling proposals. She is the President of IODP-Italia.

Angelo Camerlenghi is marine geoscientists at the National Institute of Oceanography and Applied Geophysics – OGS and professor of Marine Geology at the University of Trieste. He has been involved in scientific ocean drilling since the early stages of his career, as student-technician at the ODP headquarters in College Station, shipboard sedimentologist on ODP Leg 146, co-chief scientist of Leg ODP 178 and co-author in other drilling proposals. He will be Chair of ESSAC in the years 2022-23.

The talk will illustrate the present and future structure of IODP, focussing on the European Consortium for Ocean Research Drilling (ECORD), the Italian participation in the program, and the future scientific challenges as defined in the recently published 2050 Science Framework document.

Webinar Information and Guidelines

HOW to JOIN the WEBINAR

To attend the webinar, please register at the link on the front page.

Once you register for the webinar, you will receive a confirmation email with a unique and personal link.

The system will notify you a reminder as the event date approaches.

All attendees are advised to download in advance GoToWebinar at the page <https://support.goto.com/webinar/help/download-now-g2w010002>

WEBINAR FORMAT

Speaker's presentation (45'). Your microphone will be muted by default throughout speaker's presentation (45'). Please direct any issue that may arise to the webinar chat.

Discussion - Q&A session (15'). During Q&A session, you will be enabled to ask questions to the presenter. You can use the webinar chat to submit your question (or leave your comment) or you can raise your hand. In the first case, the convenors will direct your question to the presenter. In the second case, you will be able to talk as the convenors call on you: your microphone will be unmuted (your camera can be also enabled, upon request). Fabio Florindo (INGV) and Annalisa Iadanza (CNR) will moderate Q&A session.

ALL PARTICIPANTS are REMINDED that:

The webinar will be recorded and the recording will be made available on our website www.iodp-italia.cnr.it (subject to author's permission).

Certificates of attendance can be issued upon request.

Any requests, questions or comments can be directed to iodp-italia@cnr.it
