

UNIVERSITÀ
DEGLI STUDI
DI PALERMO

COST-ANR MEDSALT SYMPOSIUM

Workshop: University of Palermo, 24-26 October 2016
Messinian evaporites field trip, 27-28 October 2016.

Scope: To gather experts and Early-stage researchers to discuss the state of the art of research on the Mediterranean Salt Giant and the scientific drilling objectives in the framework of the objectives of:

- COST Action CA15103
- ANR Networks MEDSALT
- IODP pre-Proposal P857B DREAM

Scientific Committee:

*Vanni Aloisi, Paris
Angelo Camerlenghi, Trieste
Christian Hübscher, Hamburg
Johanna Lofi, Montpellier
Vinicio Manzi, Parma
Roger Urgeles, Barcelona
Hrustem Smailhodzic, Travnik*

*Daniel Garcia-Castellanos, Barcelona
Andrea Moscariello, Genève
Francesca Petrera, Trieste
Manja Zebre, Ljubljana
Romana Kacic, Piran
Snezana Komatina, Travnik*

Local Host (logistics, and Field Excursion coordinator):

*Antonio Caruso, University of Palermo email antonio.caruso@unipa.it
Claudia Cosentino, University of Palermo email: claudia.cosentino@unipa.it
Università degli studi di Palermo
Dipartimento di Scienze della Terra e del Mare
via Archirafi 20-22, 90123 Palermo
phone +39 09123864621*

Contacts:

*ANR: Vanni Aloisi giovanni.aloisi@locean-ipsl.upmc.fr
COST: Giorgia Rivoira grivoira@inogs.it, Barbara Merson bmerson@inogs.it,
Angelo Camerlenghi acamerlenghi@inogs.it*

Venue:

FIRST DAY:
Palazzo STERI
Sala delle Capriate
Piazza Marina, 61 90133 Palermo

SECOND AND THIRD DAY:
Orto Botanico (Botanic Garden)
Sala Lanza
Via Lincoln, 2 90133 Palerm

COST-ANR MEDSALT SYMPOSIUM

Program

MONDAY OCTOBER 24			
8:15-9:00	REGISTRATION		
09:00-10:00	WELCOME AND INTRODUCTION		The Rector of the University of Palermo, President of OGS; Angelo Camerlenghi/Johanna Lofi, Vanni Aloisi, Antonio Caruso for Logistics Romana Kacic
1 10:00-10:15	Scientific Research of MSC as a game		
	WG1 - Messinian Salinity Crisis		
2 10:15-10:30	Overview	Johanna Lofi	
	10:30-11:00 COFFEE BREAK		
3 11:00-11:15	Toward an improved global climate context for the Messinian Salinity Crisis	Tim Herbert et al.	1
4 11:15-11:30	Orbital control on the simulated late Miocene Mediterranean Sea and Paratethys freshwater budget: proposing new scenarios for the Messinian Lago-mare stage	Alice Marzocchi et al.	2
5 11:30-11:45	Adding spatial variation to models for the salinity of the Messinian basin	Paul Meijer and Dirk Simon	3
6 11:45-12:00	Evaporite accumulation during the Messinian Salinity Crisis: a modeling approach	Julien Gargani	4
7 12:00-12:15	Salt and lakes: reconstructing late Messinian palaeohydrology using exogenous drainages	Sean Connel and Andrew Madof	5
8 12:15-12:30	Hydrology of marginal evaporitic basins during the Messinian Salinity Crisis: isotopic investigation of gypsum hydration water	Aïda El Kilany et al.	6
9 12:30-12:45	Miocene to Pleistocene osmium isotopic records of the Mediterranean sediments	Junichiro Kuroda et al.	7
10 12:45-13:00	Paleogeography of the Black Sea during the Messinian salinity crisis	Natalia Tyuleneva and Igor Suchkov	8
	13:00-14:30 LUNCH		
11 14:30-14:45	Integrated stratigraphy and chronology of Messinian evaporites from the Levant basin in the deep eastern Mediterranean	A. Meijlison et al.	9
12 14:45-15:00	Effect of Messinian Evaporites in Hydrocarbons Prolific and Prospective Basins in the Mediterranean and Red Sea	Amani Badawi and Y. Hassaan	10
13 15:00-15:15	Onshore-offshore correlation of the Messinian salinity crisis record in the Strymon-Prinos- Vasileios Karakitsios et al. Kavala area		11
14 15:15-15:30	Origin and evolution of the Messinian basins developed on top of the Sicilian Fold and Thrust belt	Attilio Sulli et al.	12
15 15:30-15:45	Calcareous nannofossil bioevents in the pre-evaporitic Messinian	Alessandra Negri and Francesca Lozar	13
16 15:45-16:00	Messinian Erosion Surface onshore/offshore Ibiza Island, Balearic Promontory.	Agnès Maillard et al.	14
	16:00-16:30 COFFEE BREAK		
17 16:30-16:45	Overview and Preliminary porewater results for samples from the MEDSALT cruise, July-2015, compared to DSDP and ODP results from nearby sites. 2015, compared to DSDP and ODP results from nearby sites.	Gert J. De Lange et al.	15
18 16:45-17:00	First 40Ar/39Ar dates for the Abad Mb (Sorbas basin, SE Spain): testing the age of the MSC onset	Luis Gibert et al.	16
19 17:00-17:15	Precessional Sr isotope variability in the late Miocene Sorbas Basin and what this tell us about the relationship between the Mediterranean and its marginal basins before and during the MSC	Sevasti Modestou et al.	17
20 17:15-17:30	A significant discontinuity near the Miocene Pliocene boundary in the Atlantic margin of Spain and the Messinian Salinity Crisis	Francisco Javier Sierro et al.	18

Program, page 1 of 4

TUESDAY OCTOBER 25

09:00 - 10:30 WG1 posters

- | | |
|---|--------------------------------------|
| How did paroxysm of the Messinian Salinity Crisis impact the Alboran Sea? | Damien Do Couto et al. |
| Sedimentological and petrophysical characterizations of the Messinian sandstones, onshore Nile Delta, Egypt | Leila Mahmoud and Andrea Moscariello |
| MSC knowledge on the Balearic Promontory | Agnès Maillard |
| Structure and Neogene evolution of the Balearic Promontory | Agnès Maillard et al. |
| Evidences of pre-Zanclean marine reflooding of the Mediterranean Basin | Jean-Pierre Suc et al. |
| The Messinian/Zanclean boundary in the Red Sea' record.
"New data" from DSDP Leg 23 (Site 225) | Antonio Caruso et al. |
| MSC seismic imaging and geological evolution of two back-arc basins in the Western Mediterranean | Del Ben et al. |
| The MSC Central Balearic Depression: an undeformed analog for the MSC Sicilian basin? | Johanna Lofi et al. |

10:30-11:00 COFFEE BREAK

WG2 - Salt Tectonics, fluids and geohazards

21 11:00-11:15	Overview	Christian Huelscher and Roger Urgeles	1
22 11:15-11:30	Focused fluid flow in the Eastern Mediterranean	Claudia Bertoni et al.	2
23 11:30-11:45	Fluid flow scenarios during the Messinian Salinity Crisis: evidences from the Brecciated Limestones of the Western Mediterranean Basin	Annalisa Iadanza et al.	3
24 11:45-12:00	The spatial, temporal and volumetric analysis of a large mud volcano province	Christopher Kirkham et al.	4
25 12:00-12:15	Heat flow anomalies on the Western Mediterranean margins and the possible role of fluid flow and salt tectonics: first results of the WestMedFlux-2016 cruise	Jeffrey Poort et al.	5
26 12:15-12:30	Seismic stratigraphy of eastern Mediterranean Messinian evaporites	Andrew S. Madof and Sean D. Connell	6
27 12:30-12:45	A fast method to identify potentially unstable soils - application to salt	Carl Fredrik Forsberg et al.	7
28 12:45-13:00	Salt tectonic features offshore, Nile Delta, Egypt	Amr Hamouda	

13:00-14:30 LUNCH

29 14:30-14:45	Mediterranean salt accumulations – a result of long-term tectonic activities?	Martin Hovland et al.	8
30 14:45-15:00	Grain-scale controls on permeability, capillary pressure, and mechanical strength in subsalt and intrasalt mudrocks	Hugh Daigle et al.	9
31 15:00-15:15	Investigation of the evolution of accretionary wedges with viscous décollements – utilizing numerical "sandbox" simulations	Katrin Huhn et al.	10
32 15:15-15:30	3d structural model of the Sicilian Gela thrust system: A first step to understand the Central Mediterranean paleogeography during the messinian	Daniel Contla et al.	11
48 15:30-15:45	Dating the initial activity and inferring rates of displacement along normal faults offshore Israel: faulting triggers slumping or vice versa?	Zohar Gvirtzman et al.	12
47 15:45-16:00	Influence of the Mid-Pleistocene Transition on the development of submarine canyons on the Ebro Margin, NW Mediterranean: the role of fluvial connection	Marie Aline Mauffrey et al. (WG4 talk that cannot be given on Wednesday)	5

16:00-16:30 COFFEE BREAK

WG3 - Deep Biosphere

33 16:30-16:45	Overview	Giovanni Aloisi, Paris, France	1
34 16:45-17:00	Microbial life in modern and ancient halite	Terry J. McGenity et al.	2
35 17:00-17:15	Contribution of organic geochemistry to the Messinian Salinity Crisis	Nao Ohkouchi et al.	3
36 17:15-17:30	The molecular fossil record at the onset of the Messinian Salinity Crisis	Marcello Natalicchio et al.	

18:00 Visit Museum and Conference Flavio Bonin. Salt trades in the Mediterranean.

20:00 Social dinner

Program, page 2 of 4

WEDNESDAY OCTOBER 26			
WG3 - Deep Biosphere (continued)			
37 09:00-09:15	The microbiological content of Messinian Gypsum	Francesco Dela Pierre et al.	4
38 09:15-09:30	Geochemical behaviour of Rare Earths, Zr and Hf during halite crystallisation	Paolo Censi and Claudio Inguaggiato	5
39 09:30-09:45	Carbonate deposition during the Messinian Salinity Crisis: Facies distribution and role of the microbial mediation (calcare di base Fm - Southern Italy)	Edoardo Perri et al.	6
40 09:45-10:00	A proposal to explore the viruses in The Mediterranean Salt Giant	Fernando Santos et al.	7
41 10:00-10:15	Lowermost Pliocene sediments at DSDP Leg 42A, Site 374, Ionian Abyssal Plain: A "Natural Laboratory" to study on-going dolomite precipitation associated with bacterial sulfate reduction	Judith A. McKenzie et al.	8
WG4 - Deep Earth to surface processes interactions			
42 10:15-10:30	Overview	Daniel Garcia-Castellanos/Andrea Moscariello	
<i>10:30-11:00 COFFEE BREAK</i>			
43 11:00-11:15	Neogene Tectonics and the Messinian Salinity Crisis	Cesar Ranero et al.	1
44 11:15-11:30	Increased magma production and volcanism triggered by the Messinian Salinity Crisis	Pietro Sternai et al.	2
45 11:30-11:45	Morphology and the age of karst relief in W Slovenia	Andrej Mihevc	3
46 11:45-12:00	The shoreline in the Po Plain-Northern Adriatic basin during the Latest Messinian sea-level drop: 3D modeling and backstripping analysis	Chiara Amadori et al.	4
12:00 - 12:30 WG2 posters			
	Deformation character of submarine landslides in salt basins – examples from the Espírito Santo Basin (SE Brazil).	Davide Gamboa	
	Early rise and contractional reactivation of distal salt diapirs in the Western Mediterranean : a new two-step scenario	Virginie Gaullier et al.	
	Deep basin Messinian evaporites on the southern Balearic margin, Western Mediterranean	Angelo Camerlenghi et al.	
12:30-13:00 WG4 Posters			
	Interaction between crustal tectonics and salt deformation in the Eastern Sardinian margin, Western Tyrrenian Sea: seismic data and analogue modelling	Virginie Gaullier et al.	
	Neogene Tectonics and the Messinian Salinity Crisis	Cesar R. Ranero et al.	
<i>13:00-14:30 LUNCH</i>			
SCIENTIFIC DRILLING and other initiatives			
49 14:30-14:45	Investigating Miocene Mediterranean-Atlantic Gateway Exchange (IMMAGE) – an amphibious drilling proposal that complements DREAM	Rachel Flecker	
50 14:45-15:00	The DREAM P857B IODP Drilling project on the Balearic Promontory	Johanna Lofi	
51 15:00-15:15	Site Survey and environmental impact issues	Angelo Camerlenghi	
52 15:15-15:45	The impact of underwater noise on marine life: establishment of mitigation measures according to different Mediterranean legislations and MSFD	Carla Alvarez Chicote	
53 15:45-16:00	Discussion: Strategy for overcoming the environmental impacts issues		
<i>16:00-16:30 COFFEE BREAK</i>			
54 16:30-16:45	Riser Drilling perspectives	Camerlenghi, Lofi, Aloisi, Kuroda	
55 16:45-17:00	End of Workshop - future actions	tbn	
56 17:00-17:30	INTRODUCTION TO FIELD TRIP		
17:30 19:00 MEDSALT COSTAction CA15103 SC MEETING (only for MC members, substitutes, and observers)			

THURSDAY OCTOBER 27

Field Excursion Day 1 - Ciminna, Santa Elisabetta , Eraclea Minoa
NIGHT OUT in Agrigento

FRIDAY OCTOBER 28

Field Excursion Day 1 - Realmonte Mine, Capo Rossello
NIGHT in Palermo

Saturday October 29: Departure of participants
note: details of the field trip program will be provided on site.

Program, page 4 of 4

Logistics

All participants have been notified the Hotel they have been booked.
For Palermo Airport to Hotels, use public transportation (bus - Prestia & Comandè, 6.30 Euro),
taxis (35.00 Euro) or collective taxis (7/8 Euro). The box office of the collective taxis is close to the
bus terminal.

Note that the meeting location will change on the second day. You will be given all necessary
instruction on site.

COST Action CA15103 MEDSALT Management Committee Members, Substitutes, and Observers
will have to attend the MC Meeting on Wednesday at 17:30.

The field trip will be with a bus provided by the organization. Accommodation for Thursday night
(during the field trip) has been arranged by the organization. You only need comfortable outdoor
shoes and raincoat.

The last night (Friday Oct 28) will be spent in the same hotels used before leaving for the field trip.

All local expenses (local transportation, meals and hotel) will have to be anticipated by
participants. Reimbursement will be provided after the meeting , according go each individual
agreement, through the COST Action CA15103 MEDSALT and ANR MEDSALT Project, provided you
justify all expenses according to instructions. Meal will be charged on site 20 Euro each (**only cash**).
Be ready to pay daily the meal costs on cash). A social dinner will take place on Tuesday 25
October (**20 Euro cash**). Coffee break and field trip transportation will be covered by the
organization.

IMPORTANT: reimbursement will be possible ONLY if each participant sign the list of participation
that will be available at the Workshop and during the Filed trip. **PLEASE MAKE SURE YOU SIGN
EACH DAY.**

Check the weather forecast for time of the workshop. Temperature can be above 22 degrees C.
